

## Thrilling speeds & safe through the scenic archipelago!

**Whyshore Events** provides our exceptionally beautiful archipelago aboard an "R.I.B." (Rigid Inflatable Boat). This option allows guests to experience the expanse of our islands and sea, and still have time left for conferencing and/or a meal at one of the many seaside inns in the archipelago, located along the coast.

Picture the most splendid lunch of the summer after a few hours "kick-off", before enjoying a high speed journey all the way back to starting point or elsewhere.

The Rupert 40 R.I.B. is equipped with state-of-the-art navigational tools.

Guests receive foul-weather gear, safety goggles and life jackets.

Twin engines, 600 horsepower, for a trip at 50-60 knots towards for example, a sauna located in the remotest reaches of the archipelago or perhaps a festive meal in the vicinity of a classic lighthouse.

A day guaranteed to be filled with adventure and scenic impressions of the best kind.
